

Ottawa, March 21, 2020

Dear students, agents and collaborators,

As we navigate through COVID-19 on a worldwide basis, we hope you are safe and doing well.

Due to the recent developments, and following the guidelines and counsel of public health officials and the Canadian government, we would like to inform you that Interlangues will be postponing its on site classes and assessments until the government lifts these measures.

As a result of the disruption of classes, we have offered all present and registered students a reimbursement or credit. We are also assisting students currently registered at the school with the option of being in touch with an English teacher remotely, in order to maintain their levels, free of charge.

In the meantime, our team is working hard to provide students with virtual learning alternatives which will allow future students to keep advancing in their English skills remotely and which will be implemented in the upcoming months.

Please know that we are here for you and welcome your comments and feedback. We are confident things will get better and look forward to continuing to deliver English language training to you!

Stay safe and be well.

Warmest regards,  
The interlangues Team
